Let's Talk

EXPERIENCE

Internships & impact

🧠

AI for Sustainability Intern

AICTE & IBM (1M1B)

Worked with AI/ML concepts, LLMs, IBM Granite models and RAG frameworks. Built sustainability-focused AI solutions.

📊

Machine Learning Intern

FUTURE INTERNS

Developed predictive analytics and customer-behavior analysis models.

📈

Data Analytics Intern

TATA GENAI POWERED DATA ANALYTICS

Performed exploratory data analysis and predictive modeling on real datasets.

💻

Software Engineering Intern

JPMORGAN CHASE

Built REST APIs and enterprise software integrations.

📁

Data Analytics Intern

DELOITTE

Performed data analysis and dashboard development for business insights.

PROJECTS

Selected work

🧠

AI-Powered Oceanographic Data Query System

NLP-based AI system for querying ARGO oceanographic data using LLMs and RAG pipelines.

PythonLLMRAGNLP

🔗 Code🔗 Demo

🚀

Rock Paper Scissors Game

Interactive Python game with a polished UI and built-in analytics tracking.

PythonTkinterAnalytics

🔗 Code🔗 Demo

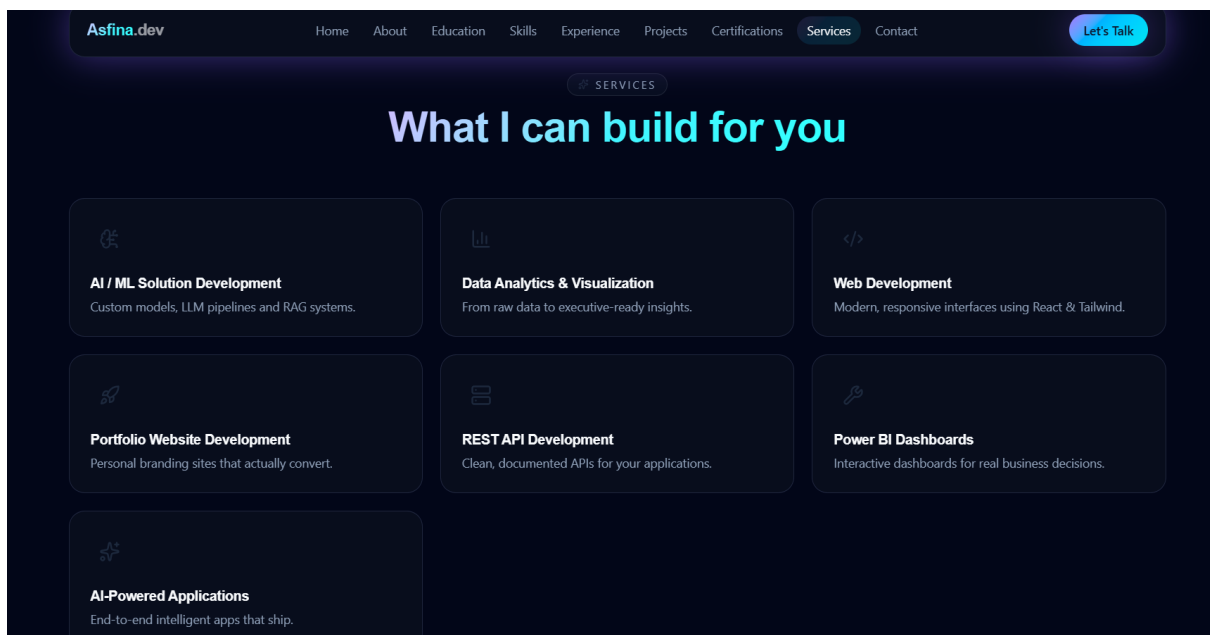

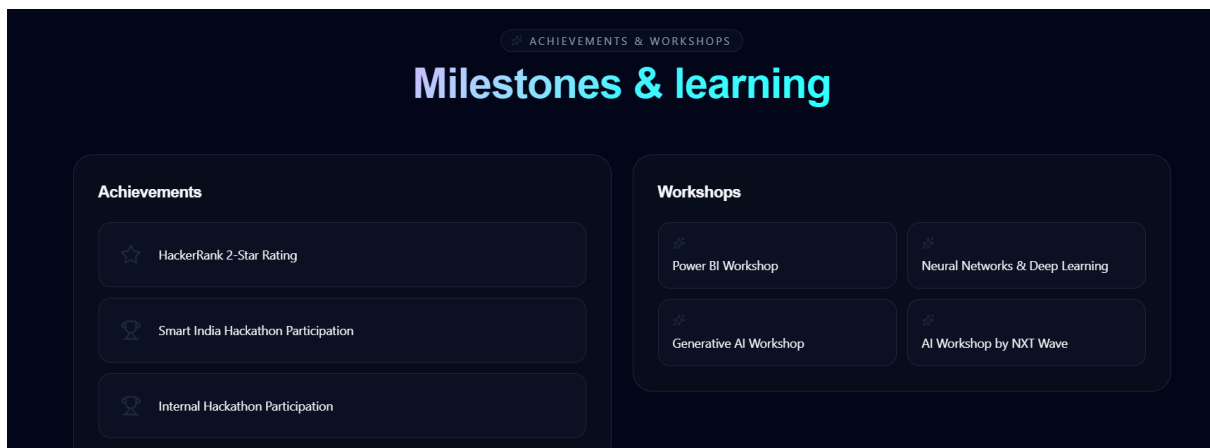

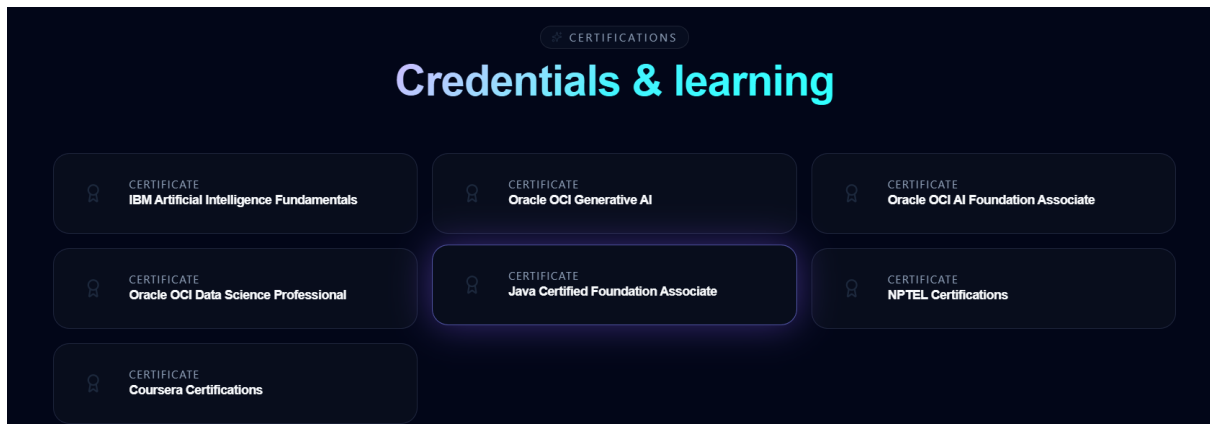

⚡

UV Sterilization System

Safety-focused sterilization solution demonstrating hardware + software innovation.

IoTEmbeddedSafety

🔗 Code🔗 Demo

Let's build something brilliant

Open to internships, freelance work and meaningful collaborations.
